MEMORANDUM FOR: Special Assistant to the Director  
for Planning and Development

SUBJECT: [REDACTED]

25X1D

Pursuant to your recent request I have asked Canso to look into the status of rework of subject items. [REDACTED] reports that three of our six units have been reworked and returned to the field three others are still in rework.

2. [REDACTED] will look further into the reliability of these items after rework by Reno-Woodbridge and will give me an additional report. As I remember the case [REDACTED] agreed to inspect our six units after rework by Reno-Woodbridge but was not agreeable to doing the same for the additional Air Force items because of time available by him to do the inspection.
